

# What's New — Role-Based Access Control Update

**Product:** ERP Inventory & Procurement System

**Document Type:** Client Release Note

**Date:** April 2026

## Overview

We have revamped the user role system to better reflect your organisation's actual workflow. The previous two-level system (inventory-executive / inventory-manager) has been replaced with **five dedicated roles**, each aligned to a specific function in your team.

## New Roles

| Role             | Who is this for                                                              |
|------------------|------------------------------------------------------------------------------|
| Admin            | System administrators — full access to everything                            |
| Purchase Manager | Purchase / procurement team — manages suppliers, POs, indents                |
| Management       | Senior leadership — read-only view across all modules, can see pricing       |
| Project Manager  | Site / project supervisors — manages indents at project level                |
| Store Incharge   | Warehouse / site store staff — receives material, raises and handles indents |

## What Changed for Each Role

### Admin

No change in access — continues to have full access to all modules, all actions, and all data.

### Purchase Manager *(previously: inventory-manager)*

**Can do:**

- Create, edit, and delete Purchase Orders
- Approve, reject, and edit Indents (in New or Approved status)
- Add and manage Suppliers (Firms), Products, Categories, Machinery
- View all modules including pricing and financial data
- Download / export all reports

**Cannot do:**

- Add or edit Inward / Outward stock entries
- Manage users

### **Management** *(new role)*

**<b>Can do:</b>**

- View all modules — Dashboard, Indents, Purchase Orders, Inward, Outward, Stock, MOR, Lost
- View financial data including rates, GST, and totals on Purchase Orders
- Print Purchase Orders with rates
- Export and download reports from all modules

**<b>Cannot do:</b>**

- Create, edit, or delete any record (read-only access across the board)
- Approve or reject indents
- Manage users

### **Project Manager** *(new role)*

**<b>Can do:</b>**

- View all modules at project level
- Create, edit, and submit Indents (while in New or Approved status)
- Approve and Reject Indents raised by store staff
- Cancel Indents that are in Approved status
- View Purchase Orders (without pricing/rate details)
- Export reports

**<b>Cannot do:</b>**

- Create Purchase Orders
- Add or edit Inward / Outward stock entries
- See pricing, rates, or financial totals on Purchase Orders
- Manage users

### **Store Incharge** *(previously: inventory-executive)*

**<b>Can do:</b>**

- Add Inward stock entries (from PO, Direct, or Sample)
- Add Outward stock entries
- Edit and delete their own Inward / Outward records (within the allowed edit window)
- Add Machinery on Rent and Lost / Damaged entries
- Create and submit Indents
- Edit Indents that are in New status
- Cancel their own Indents that are in New status
- Re-submit a Rejected indent as a new indent (with data pre-filled)
- Add and manage Contacts / Suppliers

**<b>Cannot do:</b>**

- Approve or reject Indents (this is done by Purchase Manager or Project Manager)
- Create or edit Purchase Orders

- See pricing, rates, or financial totals
- Manage users

## Permission Summary by Module

---

### Purchase Order

## User Accounts Migrated

---

As part of this update, all existing user accounts have been reassigned to the new roles based on their job function. No new passwords are required — existing credentials remain valid.

| New Role         | Users Assigned                                                                                                     |
|------------------|--------------------------------------------------------------------------------------------------------------------|
| Admin            | dhiraj, narendra, deep, sridhar <i>(no change)</i>                                                                 |
| Purchase Manager | Gopi, chandrabhushan, Manish                                                                                       |
| Store Incharge   | satish, jaydeep, Dharmendra, Mansingh, yashwant, rakeshdewangan, rajat, deepak, bhupendradewangan, Pratham, Sanjay |
| Management       | <i>(assign as needed)</i>                                                                                          |
| Project Manager  | <i>(assign as needed)</i>                                                                                          |
